

Reference Plus™

Low margins. Tight budgets. Staffing and resource constraints – all in a day’s work for your critical access or small community hospital. With so many balls in the air, how do you know when something goes wrong in your chargemaster? Can you afford not to know? Not only can chargemaster errors create denied or delayed payments, they can also constitute fraud if your chargemaster is out of compliance. How will you manage this risk?

Complexity Calls for Simplicity

As healthcare reform continues to transition, adding more and more complexity, you are under mounting pressure to continually keep the chargemaster up-to-date and improve coding accuracy. Now there’s an easier way.

Reference Plus is created exclusively to support your hospital’s specific business needs. It includes all the necessary tools to perform a complete chargemaster analysis – while simultaneously giving you a single source of continually up-to-date clinical, financial and regulatory coding data. So you can manage your compliance risk – with confidence.

Everything you need, clearly displayed in a single screen

A Clear View into the Chargemaster

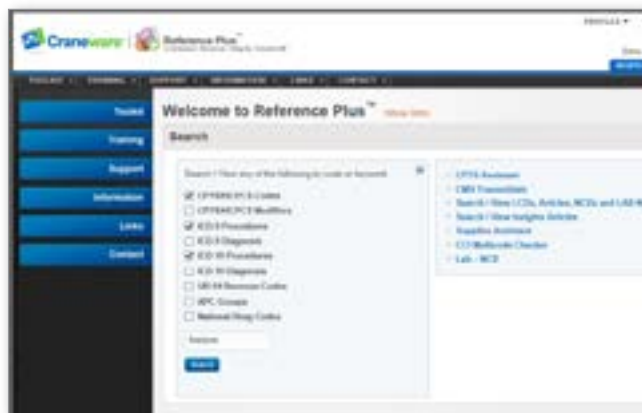

- Prioritizes where to focus limited resources to gain the highest impact
- Flags problem items that may be at risk of compliance
- Identifies deleted, replaced, invalid, inactive, and missing CPT, revenue code, and modifier issues
- Displays list of replacement codes to choose from to take corrective action
- Optional search module that quickly identifies up-to-date HCPCS codes for supplies

Partner with Craneware

Craneware established the chargemaster management software market. Today we proudly serve one quarter of all registered U.S. hospitals. Ranked by KLAS since 2006 and HFMA Peer Reviewed for 10 consecutive years, trust us to gain a clear view into your chargemaster activities and manage compliance risk.

Get Started Today

Performing an automated chargemaster analysis couldn’t be easier. Plus you’ll be supported by the same team of experts that continually receives outstanding customer service rankings. Move into proactive chargemaster analysis and minimize putting your hospital at risk of non-compliance.

Comprehensive resource for clinical, financial and regulatory coding reference information

Chargemaster Toolkit® is ranked No.1 in the Chargemaster Management category for the eleventh year in a row (2006 – 2017) as part of the “2017 Best in KLAS Awards: Software & Services” report, published January 2017. Data © 2016 KLAS Enterprises, LLC. All rights reserved. www.KLASresearch.com

For the past 12 years, HFMA staff and volunteers determined that Craneware’s Chargemaster Toolkit® meets specific criteria developed under the HFMA Peer Review Process. HFMA does not endorse or guarantee the use of this product.
